

Earth Day, Every Day

Earth Day is on April 22nd each year. Earth Day is a day to remember to take care of our planet, Earth. We can take care of our planet by keeping it clean. We can keep our earth clean by recycling aluminum, paper, and plastic. We can reuse, or use some things, like jars, and boxes more than once We can reduce our use, or use of, other things, like water. On Earth Day, we remind everyone on Earth that we must do these things. We must do these things every day, not just on Earth Day. We must all do our part to tell everyone, and we can make a difference. So, on April 22nd, remind everyone you know that Earth Day is every day!

Answer the following questions:
