

# THE AGE OF THE DINOSAURS

The word "dinosaur" comes from the Greek language and it means "**terrible lizard**" because they are very big animals.

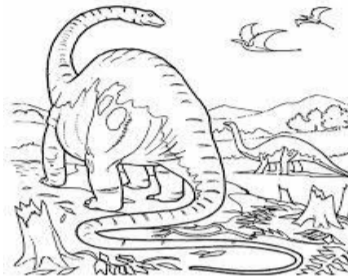

Dinosaurs live millions of years ago. There are **no people** when dinosaurs live in our planet.

Dinosaurs are **extinct** but **palaeontologists** study dinosaur fossil

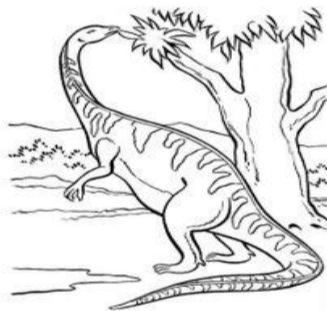

Some dinosaurs are **very big**.

Some dinosaurs are **very small** like a chicken

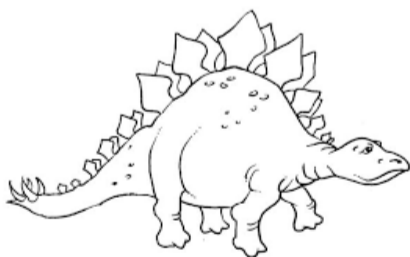

Some dinosaurs eat plants

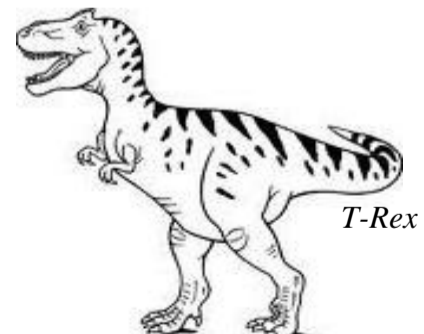

Some dinosaurs eat meat

Some dinosaurs walked on **four feet**

Some dinosaurs walk on **two feet**, like the T-Rex.

Palaeontologists put the bones together to build dinosaurs **skeletons**. Skeletons are at the **museums**.
