

An Easter card

To make this cute birds nest that pops out at you, you will need to look at the diagrams above. Firstly, fold a piece of paper in half. Draw a nest shape as seen in figure 1 by drawing a curved dotted line up towards the right...then draw bumpy lines at the top of the nest. Cut the bumpy lines and fold on the dotted line as seen in figure 2. Then fold it back in place flat. Then place the card on the table like a tent and push in the cut-out paper. Now open up the card from the other side. Now it looks like a nest...as you see in figure 4. Now what you should do is use watercolors, crayons, or colored pencils to draw and color in eggs in the background...also paint the nest and background. Now, cut out eggs and color them a pastel color. Glue them to the inside of the popped-out nest. Now you have a beautiful pop-up Easter Eggs Nest Card to give to somebody you care about.
