

Dinosaurs: animals from the past

Read :

Dinosaurs are reptiles. They live a very long time ago. The word "dinosaur" means "terrible lizard".

An English scientist invent their name in 1842.

Dinosaurs exist about 230 million years ago, but about 65 million years ago, the dinosaurs become extinct.

There are many kinds of dinosaurs. Some dinosaurs eat plants, they are called " herbivors". Others eat meat and they are called " meat-eaters"

The largest dinosaurs are plant-eaters.

Some dinosaurs eat other dinosaurs.

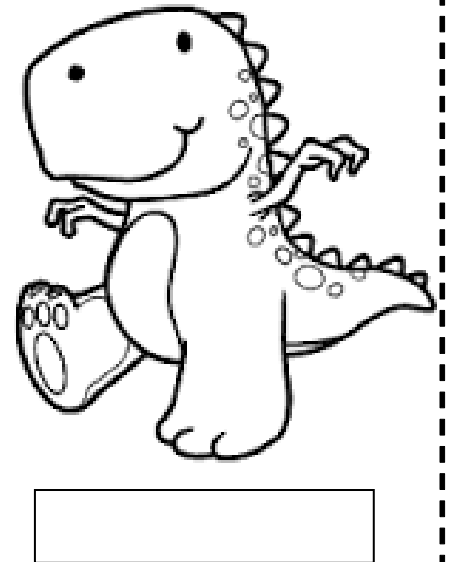

Some dinosaurs are very large, and some are small.

Answer :

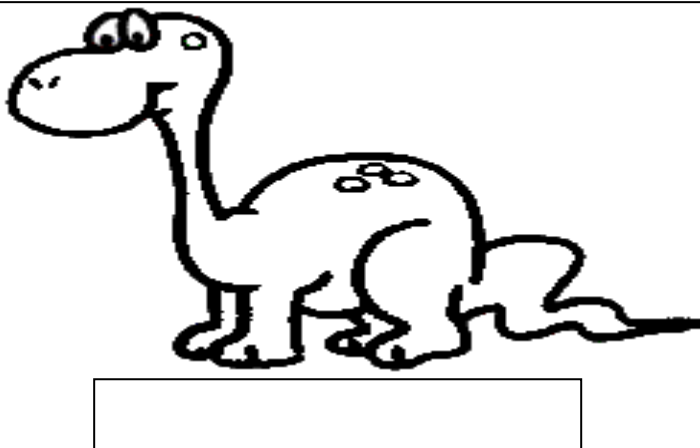

1) What is a dinosaur?

2) Waht does "dinosaur" mean?

3) When do dinoosaurs exist?

Write the names of the dinosaurs under the pictures:
