

Mother's day

Mother's Day is a day that is celebrated around the world. Each country has a unique date for their holiday and sometimes a unique meaning. For example, in Norway it is celebrated on the second Sunday of February. In Mexico it is celebrated on May 10th. In the United States, Mother's Day is celebrated on the second Sunday of May and so it's in Italy, in Great Britain and other countries.

In most countries, while the origination of the holiday may differ, the common theme is to celebrate the contributions mothers make to the family and to the world.

Mother's Day is a day that many children love. They enjoy showing their mother how much they mean to them. They enjoy making crafts, writing poems and learning how other children and families celebrate mother's day around the world.

Activity: draw your mother's portrait and complete the description, then cut it and give it to your mum

MY MUM

My mum's name is _____

She has got _____ hair

She has got _____ eyes.

She is beautiful.

Mummy I love you!
